

SUMMARY OF PRESENTATIONS

Plenary

A Vision for ArcGIS

Jean Dion, Regional Director, Quebec, Esri Canada

Mike Gregotski, Team Lead, Sector Solutions

Martin Couture, Technical Solutions Specialist

GIS is evolving to fulfil many roles within organizations today. Your GIS can simultaneously be a System of Record, a System of Engagement and a System of Insight. Using these roles as a framework, we will explore Esri's vision for GIS technology and its benefits to our user community. With a GIS that is unrivalled in its capabilities and potential, we've put geographic knowledge into the hands of more people and established a new level of understanding and collaboration.

Mike Gregotski

Mike Gregotski is the team lead for Sector Solutions at Esri Canada. As a member of the Industry Solutions team, he is responsible for the development and delivery of demonstration resources that highlight the benefits of implementing Esri technology. Mike has attained Desktop and Enterprise-level Esri Technical Certifications. He has been with the company since 1998 and previously worked in Client Support where he assisted clients with ArcGIS, ArcIMS and ArcSDE software. Before joining Esri Canada, Mike was a mapping coordinator with Transcontinental Distribution.

ArcGIS in Action

Mike Gregotski, Team Lead, Sector Solutions

Martin Couture, Technical Solutions Specialist

Jonathan Gaudreau, GIS Consultant, Professional Services Quebec

This session will explore how the ArcGIS platform is being leveraged across a many workflows to solve problems, increase efficiency and improve productivity. We'll showcase how both GIS professionals and knowledge workers benefit from user-friendly apps to enable analysis, collaboration and mobility across the enterprise and beyond.
